### ABOUT ME

I am a passionate and driven Computer Science (AI & ML) student with a strong interest in programming, artificial intelligence, and web development. I enjoy exploring how AI works and interest on taking coding challenges that sharpen my logical thinking and problem-solving skills. I'm eager to learn, build real-world projects, and grow as a full-stack or AI developer.

### EDUCATION

- Bharath Institute of Higher Education and Research | B.tech | CSE(AI&ML) | 2022 -2026 | C.G.P.A:-9.1
- SR Junior College | Intermediate - MPC | 2020-2022 | 95%
- St.ann's School | Class x - ICSE Board | 2019-2020 | 77%

### TECHNICAL SKILLS

- Programming Languages :- C ,C++, Java, Python, DSA with c
- Web Technologies :- HTML, CSS, Java Script
- Query Languages :- SQL
- Communicational Languages :- English, Telugu, Hindi

### PROJECTS

#### To-DO-List application

- Objective: Built a full-stack To-Do List app to add, complete, and delete tasks for efficient task management.
- Web Technologies Used: HTML, CSS, JavaScript (Frontend); Node.js with Express (Backend); SQLite (Database).
- Application: Personal productivity tool for managing daily tasks with persistent local storage using SQL.

#### PROJECT-1

#### Zomato UI clone

- Objective: Designed a responsive Zomato homepage interface using only HTML and CSS, replicating real-world food delivery layouts.
- Web Technologies Used: HTML and CSS.

#### PROJECT-2

#### Spotify UI clone

- Objective: Created a visually accurate clone of the Spotify web interface using HTML and CSS, focusing on layout, icons, and styling.
- Web Technologies Used: HTML and CSS.

#### PROJECT-3

### CERTIFICATIONS

- Certified in HTML,CSS& Java Script by **Codekaro** – Gained foundational skills in web design and responsive UI development. May 2025
- Full Stack Web Development Training by **Edutantr** – Learned end-to-end web development including frontend, backend, and database integration. Feb 2025 - May 2025
- AI/ML Virtual Internship by **Eduskills** – Gained practical exposure to artificial intelligence and machine learning concepts through hands-on projects. Apr 2025 - Jun 2025
- SQL Internship Certificate by **Devtown** – Gained hands-on experience in writing and managing SQL queries through practical database tasks. Jul 2025

### ACHIEVEMENTS

- Recognized with a Gold Badge for Python on **HackerRank** for consistent performance in coding challenges.
